ABOUT

I have a natural curiosity and love of learning that can be applied to any challenge or problem solved through coding and web development. This interest led me to complete online web dev bootcamps and certificates that have allowed me to begin work as a freelance front-end developer.

PORTFOLIO/PROJECTS

Home Automation Web Dashboard

- Designed & developed a home automation system in nodeJS
- Uses Raspberry Pi's as IoT devices to control systems MySQL database
- Developed the front-end of the system using HTML/CSS and Javascript
